Projects

Portfolio

A portfolio built with HTML, CSS, and JavaScript, featuring dedicated sections for skills, projects, and a contact page. It includes interactive animations, a modern design, and showcases achievements.

Netflix Clone

Netflix clone featuring a responsive grid layout, hover effects, and animations, built entirely with HTML and CSS

Diwali Delight

Festive Diwali project featuring interactive animations like diyas and fireworks.

You Tube Clone

A modern YouTube clone built using HTML, CSS, and JavaScript. The project features a clean user interface with video thumbnails, navigation menus, and hover effects, mimicking the YouTube experience.

Cureency Converter

A sleek and responsive currency converter application designed with HTML, CSS, and JavaScript. It offers real-time currency exchange rates, enabling users to convert currencies with ease and accuracy.

Other Projects Like Games, Car Showcase, amazon Clone, login page
